Re: Oil and Gas Occupations Training Funds

In early December, I distributed the initial solicitation for Oil and Gas Occupation Training proposals. Three responses were returned. These responses are summarized below:

Training Provider	Targeted Occupation(s)	# of Trainees	Cost per Trainee	Cost per hour of Instruction	Total Cost
UAS Mining and Petroleum Training Service (MAPTS)	Roustabouts	20	\$2,460		\$49,191
Tebughna Foundation	Roustabouts, HSE Technicians	30	\$2,612	\$316.02	\$78,372
Copper River Seafoods	Inventory Control Specialists	10	\$8,260	\$234.00	\$82,600

Based on a preliminary review of the proposals, I have contacted each prospective grantee to seek additional information, including letters of interest or commitment from employers.

If all three prospective grantees are fully funded, the balance of Oil and Gas Occupation Training Funds would be \$197,837.

Given that balance and the timing for the funds, I am seeking additional proposals. A solicitation will be sent on January 10, with a response date of January 31.

Please let me know if I can provide any additional information.
